DEVELOPING A COLLABORATIVE SOCIAL IMPACT METHOD AND ASSOCIATED TRAINING FOR ENTREPRENEURS IN COWORKING CONTEXTS

DEVELOPING IO1

Mobile report about social and environmental entrepreneurs' skills demand according to representatives from the sector

The past months have been spent working hard on IO1. Below are the different stages of development of the this result.

ACTIVITY 1

Preparing methodology for research.

The objective of this research was to find out:

- What is the perception of the needs of society in terms of expectation from businesses?
- Social enterprises intend to solve societal problems through the enterprise. How to identify these problems? Where to find the solutions?
- Training needs identified by the target groups themselves, especially focusing on how to turn a social problem into a business opportunity.

ACTIVITY 2

Conducting research and preparing interactive report interface.

The research phase took place between October 1st, 2020 and May 31st, 2021. During this time partners collected 50 responses from entrepreneurs working in co-working spaces each and organised 2 focus groups + deep interviews with trainers. Then, they prepared the report from research, which will be turned into an online tool.

ACTIVITY 3

Online and mobile version of report are completed.
